3D FORENSICS

DIGITAL DATA DISCOVERY

Quality forensic and security services at a reasonable cost

"Like... in that old movie *Fantastic Voyage*... McElhatton enters each recreated computer and follows a stranger's logic along arteries of circuitry, searching for clusters of bad behavior."

Oprah Magazine, Sept 06

O's Guide to Life: The Best of O, The Oprah Magazine 2007

Digital Data Discovery Inc. (3D Forensics) is a group of digital investigators with law enforcement and technical backgrounds training and experience. We practice the art and science of computer forensics and network security and provide high quality services at reasonable rates.

Above all we are **investigators** with experience following leads, handling evidence and testifying in court. You are invited to compare our credentials with practitioners who charge many times our rate. Please feel free to call us at any time for a down to earth plain English explanation of our product and process.

DIGITAL FORENSICS	NETWORK SECURITY	ELECTRONIC DISCOVERY
Forensic mirror imaging	Compliance audits	Class action experience
Deleted data recovery	Vulnerability studies	Tech deposition assistance
User timeline recreation	Intrusion prevention	Sample pleadings
Email/Internet analysis	Security analysis	Service bureau liaison
Clear concise reports	Information assurance	Interpret new ED rules
Expert witness testimony	Fast incident response	Cost cutting strategies
